TOP RATED FIRE ACADEMY IN FLORIDA

CLASS OFFERING

**1st Due "FIRST 10 MINUTES"
Engine, Truck & Rescue Operations
Coming Late 2020**

"The FIRST 10 MINUTES"

**Sets the tone of any call or operation regardless of
what type of unit you respond in.**

DAY 1 & 2: Engine Operations estimating the stretch, flowing, & moving both 1"3/4 & 2 1/2" hose through interior, exterior and high-rise evolutions.

DAY 3 & 4: Truck / Rescue work on forcible entry (including rotary saw work), primary & secondary searches, ventilation, VES, and street-smart ground ladders.

DAY 5: Live action, scenario based evolutions reinforcing the concepts and skills taught throughout the week.

WHO SHOULD ATTEND:

The class is intended to enhance the skills and knowledge of a new firefighter, bolster and solidify techniques and tactics of new officers (Lt. & Capt.). Current officers will benefit from the experience and getting hands on training in realistic environments.

REQUIREMENTS:

- ◆ State of Florida (or equivalent) Minimum Standards certification.
- ◆ FULL PPE & SCBA with 2 bottles required (including hand lights).
- ◆ Bring a bag lunch each day.
