Re: Addendum 8.0 – Program Catalog & Student Reference Guide

Section: Certificate of Completion – EMT-Paramedic

Sub-section: Program Objective

New Section:

Program Objective

The EMT-Paramedic program will demonstrate personal behaviors consistent with professional and employer standards and expectations for an entry-level paramedic. The goal and expectation of the program is to prepare Paramedics who are competent in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains to enter the profession. The goal is to also successfully complete the classroom/lab sections and clinical components of the program, the student in the EMT-Paramedic program will be able to:

1. Understand the roles and responsibilities of the entry-level paramedic
2. Demonstrate the understanding of the medical/legal aspects of pre-hospital emergency care
3. Comprehend the legal components of a medical patient care report and convey medical information accurately for a continuation of care
4. Prepare the correct medication dose and administration routes for a pre-hospital patient
5. Understand the importance of vascular access in a pre-hospital setting
6. Comprehend Basic pathophysiology of the airway and respiratory system
7. Understanding ECG interpretation and treatment for cardiac arrhythmias
8. Possess an understanding of the various body systems and disease processes associated with each
9. Ability to provide emergency care to the trauma patient
10. Discuss the complications associated with pre and post term labor
11. Demonstrate the ability to care for the neonate and pediatric patient in an emergent setting
12. Understand the components associated with response to Mass Casualty Incidents
13. Must complete all chapter exams with an 80% or higher
14. Complete ACLS, PALS and PHTLS
15. Complete all hour requirements for hospital and field externships

"Commitment to Excellence"

16. Complete the cognitive and psychomotor objectives associated with externship rotations

Replaced Section:

Program Objective

The EMT-Paramedic program will demonstrate personal behaviors consistent with professional and employer standards and expectations for an entry-level paramedic. The goal and expectation of the program is to prepare competent entry-level paramedics in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains, "with or without" exit points at the Advanced Emergency Medical Technician and/or Emergency Medical Technician and or Responder levels. The goal is to also successfully complete the classroom/lab sections and clinical components of the program, the student in the EMT-Paramedic program will be able to:

1. Understand the roles and responsibilities of the entry-level paramedic
2. Demonstrate the understanding of the medical/legal aspects of pre-hospital emergency care
3. Comprehend the legal components of a medical patient care report and convey medical information accurately for a continuation of care
4. Prepare the correct medication dose and administration routes for a pre-hospital patient
5. Understand the importance of vascular access in a pre-hospital setting
6. Comprehend Basic pathophysiology of the airway and respiratory system
7. Understanding ECG interpretation and treatment for cardiac arrhythmias
8. Possess an understanding of the various body systems and disease processes associated with each
9. Ability to provide emergency care to the trauma patient
10. Discuss the complications associated with pre and post term labor
11. Demonstrate the ability to care for the neonate and pediatric patient in an emergent setting
12. Understand the components associated with response to Mass Casualty Incidents
